

### **TEXAS**

## Pensionomics 2014:

Measuring the Economic Impact of DB Pension Expenditures

# Key Findings

Benefits paid by state and local pension plans support a significant amount of economic activity in the state of Texas.

Pension benefits received by retirees are spent in the local community. This spending ripples through the economy, as one person's spending becomes another person's income, creating a multiplier effect.

In 2012, expenditures stemming from state and local pensions supported...

- 146,387 jobs that paid \$7.5 billion in wages and salaries
- \$23.7 billion in total economic output
- \$3.0 billion in federal, state, and local tax revenues

... in the state of Texas.

Each dollar paid out in pension benefits supported \$1.51 in total economic activity in Texas.

Each dollar "invested" by Texas taxpayers in these plans supported \$6.91 in total economic activity in the state.

#### **Overview**

Expenditures made by retirees of state and local government provide a steady economic contribution to Texas communities and the state economy. In 2012, 552,187 residents of Texas received a total of \$12.1 billion in pension benefits from state and local pension plans.

The average pension benefit received was \$1,829 per month or \$21,945 per year. These modest benefits provide retired teachers, public safety personnel, and others who served the public during their working careers income to meet basic needs in retirement.

Between 1993 and 2012, 21.80% of Texas's pension fund receipts came from employer

contributions, 16.09% from employee contributions, and 62.11% from investment earnings. Earnings on investments and employee contributions—not taxpayer contributions—have historically made up the bulk of pension fund receipts.

#### Impact on Jobs and Incomes

Retiree expenditures stemming from state and local pension plan benefits supported 146,387 jobs in the state. The total income to state residents supported by pension expenditures was \$7.5 billion.

To put these employment impacts in perspective, in 2012 Texas's unemployment rate was 6.8%. The fact that DB pension expenditures supported 146,387 jobs is significant, as it represents 1.2 percentage points in Texas's labor force.

## Economic Impact

State and local pension funds in Texas and other states paid a total of \$12.1 billion in benefits to Texas residents in 2012. Retirees' expenditures from these benefits supported a total of \$23.7 billion in total economic output in the state, and \$14.0 billion in value added in the state.

\$9.0 billion in direct economic impacts were supported by retirees' initial expenditures. An additional \$8.8 billion in indirect impact resulted when these businesses purchased additional goods and services. \$5.9 billion in induced impacts occurred when workers employed by businesses as a result of the direct and indirect impacts made expenditures.

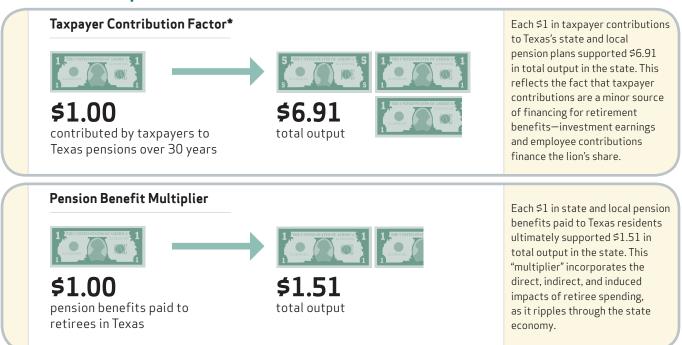

DIRECT IMPACT
\$9.0 billion

Total Economic Impact \$23.7 billion

INDIRECT IMPACT
\$8.8 billion

\$5.9 billion

# **Economic Multipliers**

<sup>\*</sup>Caution should be used in interpreting these numbers. See the Technical Appendix of the full Pensionomics report for details.

#### Impact on Tax Revenues

State and local pension payments made to Texas residents supported a total of \$3.0 billion in revenue to federal, state, and local governments. Taxes paid by retirees and beneficiaries directly out of pension payments totaled \$96.9 million. Taxes attributable to direct, indirect and induced impacts accounted for \$2.9 billion in tax revenue.

Total	\$3.0 billion
State/Local Tax	\$1.2 billion
Federal Tax	\$1.8 billion

# **Economic Impacts by Industry Sector**

The economic impact of state and local pension benefits was broadly felt across various industry sectors in Texas. The ten industry sectors with the largest employment impacts are presented in the table below.

Industry	Employment Impact (# Jobs)	Labor Income Impact	Value Added Impact	Output Impact
Food Services and Drinking Places	12,528	\$283,151,464	\$431,637,768	\$743,435,518
Real Estate Establishments	7,814	\$172,677,356	\$787,542,678	\$1,005,861,364
Physicians, Dentists, and other Health Practitioners	6,664	\$594,836,456	\$606,906,093	\$878,248,706
Private Hospitals	5,718	\$456,370,760	\$502,871,180	\$835,176,997
Wholesale Trade Businesses	4,113	\$382,483,017	\$669,888,234	\$965,918,729
Retail Stores - General Merchandise	3,686	\$108,787,598	\$184,746,972	\$226,624,931
Nursing and Residential Care Facilities	3,550	\$119,297,145	\$135,872,653	\$201,196,779
Retail Stores - Food and Beverage	3,540	\$110,983,962	\$152,247,576	\$210,721,100
Home health care services	3,052	\$77,855,595	\$82,865,628	\$122,058,217
Securities, Commodity Contracts, and Investments	2,765	\$114,682,839	\$100,207,402	\$402,454,395

Industry totals include the first round of impacts from pension payments to state residents, and do not account for recaptured "leakage" to or from other states.
