Measuring the Economic Impact of DB Pension Expenditures

Benefits paid by state and local pension plans support a significant amount of economic activity in the state of Wyoming.

Key Findings

Pension benefits received by retirees are spent in the local community. This spending ripples through the economy, as one person's spending becomes another person's income, creating a multiplier effect.

In 2020, expenditures stemming from state and local pensions supported...

4,481 jobs that paid \$182.6 million in wages and salaries

\$682.1 million in total economic output

\$81.5 million in federal, state, and local tax revenues

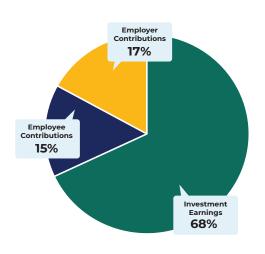

... in the state of Wyoming.

Each dollar paid out in pension benefits supported \$1.04 in total economic activity in Wyoming.

Each dollar "invested" by Wyoming taxpayers in these pension plans supported \$5.99 in total economic activity in the state.

Overview

Expenditures made by retirees of state and local government provide a steady economic stimulus to Wyoming communities and the state economy. In 2020, 32,486 residents of Wyoming received a total of \$655.5 million in pension benefits from state and local pension plans.

The average pension benefit received was \$1,682 per month or \$20,179 per year. These modest benefits provide retired teachers, public safety personnel, and others who served the public during their working careers income to meet basic needs in retirement.

Between 1993 and 2020, 17% of Wyoming's pension fund receipts came from employer contributions, 15% from employee contributions, and 68% from investment earnings.* Earnings on investments and employee contributions—not taxpayer based contributions—have historically made up the bulk of pension fund receipts.

Impact on Jobs and Incomes

Retiree expenditures stemming from state and local pension plan benefits supported 4,481 jobs in the state. The total income to state residents supported by pension expenditures was \$182.6 million.

To put these employment impacts in perspective, in 2020 Wyoming's unemployment rate was 5.8%. The fact that DB pension expenditures supported 4,481 jobs is significant, as it represents 1.5 percentage points in Wyoming's labor force.

Economic Impact

State and local pension funds in Wyoming and other states paid a total of \$655.5 million in benefits to Wyoming residents in 2020. Retirees' expenditures from these benefits supported a total of \$682.1 million in total economic output in the state, and \$372.1 million in value added in the state.

Impact on Tax Revenues

State and local pension payments made to Wyoming residents supported a total of \$81.5 million in revenue to federal, state, and local governments. Taxes paid by retirees and beneficiaries directly out of pension payments totaled \$8.0 million. Taxes attributable to pension expenditures in the local economy accounted for \$73.6 million in tax revenue.

Federal Tax	\$30.6 million	
State/Local Tax	\$51 million	
Total	\$81.5 million	

Economic Multipliers

Pension Benefit Multiplier

pension benefits paid to retirees in Wyoming

\$1.04 total output

Each \$1 in state and local pension benefits paid to Wyoming residents ultimately supported \$1.04 in total output in the state. This "multiplier" incorporates multiple rounds of impacts of retiree spending, as each purchase ripples through the state economy.

Taxpayer Investment Factor

Each \$1 in taxpayer contributions to Wyoming's state and local pension plans supported \$5.99 in total output in the state. This reflects the fact that taxpayer contributions are a minor source of financing for retirement benefits—investment earnings and employee contributions finance the lion's share.

Economic Impacts by Industry Sector

The economic impact of state and local pension benefits was broadly felt across various industry sectors in Wyoming. The five industry sectors with the largest employment impacts are presented in the table to the side.

Industry	Employment Impact (# Jobs)
Limited-service restaurants	334
Full-service restaurants	257
Other real estate	175
Tenant-occupied housing	156
Retail -general merchandise stores	148

Industry totals include the first round of impacts from pension payments to state residents, and do not account for recaptured "leakage" to or from other states.

Economic Impacts by Occupation Category

The pension benefits in Wyoming supported jobs in every civilian job category, as shown in the table below.

Occupation Category	Wage and Salary Employment	Wage and Salary Income	Supplements to Wages and Salaries	Employee Compensation
Food Preparation and Serving Related Occupations	627	\$12,427,564	\$2,212,575	\$14,640,139
Sales and Related Occupations	451	\$14,627,397	\$2,808,700	\$17,436,097
Office and Administrative Support Occupations	360	\$14,521,326	\$3,019,438	\$17,540,764
Transportation and Material Moving Occupations	274	\$10,282,720	\$2,142,538	\$12,425,259
Healthcare Practitioners and Technical Occupations	229	\$20,549,484	\$4,353,920	\$24,903,405

^{*}Caution should be used in interpreting these numbers. See the Technical Appendix of the full Pensionomics report for details.
