

# OREGON

## Key Findings

Benefits paid by state and local pension plans support a significant amount of economic activity in the state of Oregon.

Pension benefits received by retirees are spent in the local community. This spending ripples through the economy, as one person's spending becomes another person's income, creating a multiplier effect.

In 2022, expenditures stemming from state and local pensions supported...

43,326 jobs that paid \$2.7 billion in wages and salaries

\$8.1 billion in total economic output

\$1.6 billion in federal, state, and local tax revenues

... in the state of Oregon.

Each dollar paid out in pension benefits supported \$1.26 in total economic activity in Oregon.

Each dollar "invested" by Oregon taxpayers in these pension plans supported \$5.31 in total economic activity in the state.

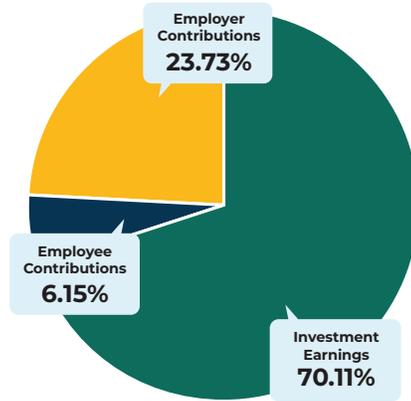

## Pensionomics 2025:

### Measuring the Economic Impact of DB Pension Expenditures

#### Overview

Expenditures made by retirees of state and local government provide a steady economic stimulus to Oregon communities and the state economy. In 2022, 166,686 residents of Oregon received a total of \$6.4 billion in pension benefits from state and local pension plans.

The average pension benefit received was \$3,220 per month or \$38,634 per year. These modest benefits provide retired teachers, public safety personnel, and others who served the public during their working careers income to meet basic needs in retirement.

Between 1993 and 2022, 23.73% of Oregon's pension fund receipts came from employer contributions, 6.15% from employee contributions, and 70.11% from investment earnings.\* Earnings on investments and employee contributions—not taxpayer based contributions—have historically made up the bulk of pension fund receipts.

#### Impact on Jobs and Incomes

Retiree expenditures stemming from state and local pension plan benefits supported 43,326 jobs in the state. The total income to state residents supported by pension expenditures was \$2.7 billion.

To put these employment impacts in perspective, in 2022 Oregon's unemployment rate was 3.9%. The fact that DB pension expenditures supported 43,326 jobs is significant, as it represents 2.0 percentage points in Oregon's labor force.

#### Economic Impact

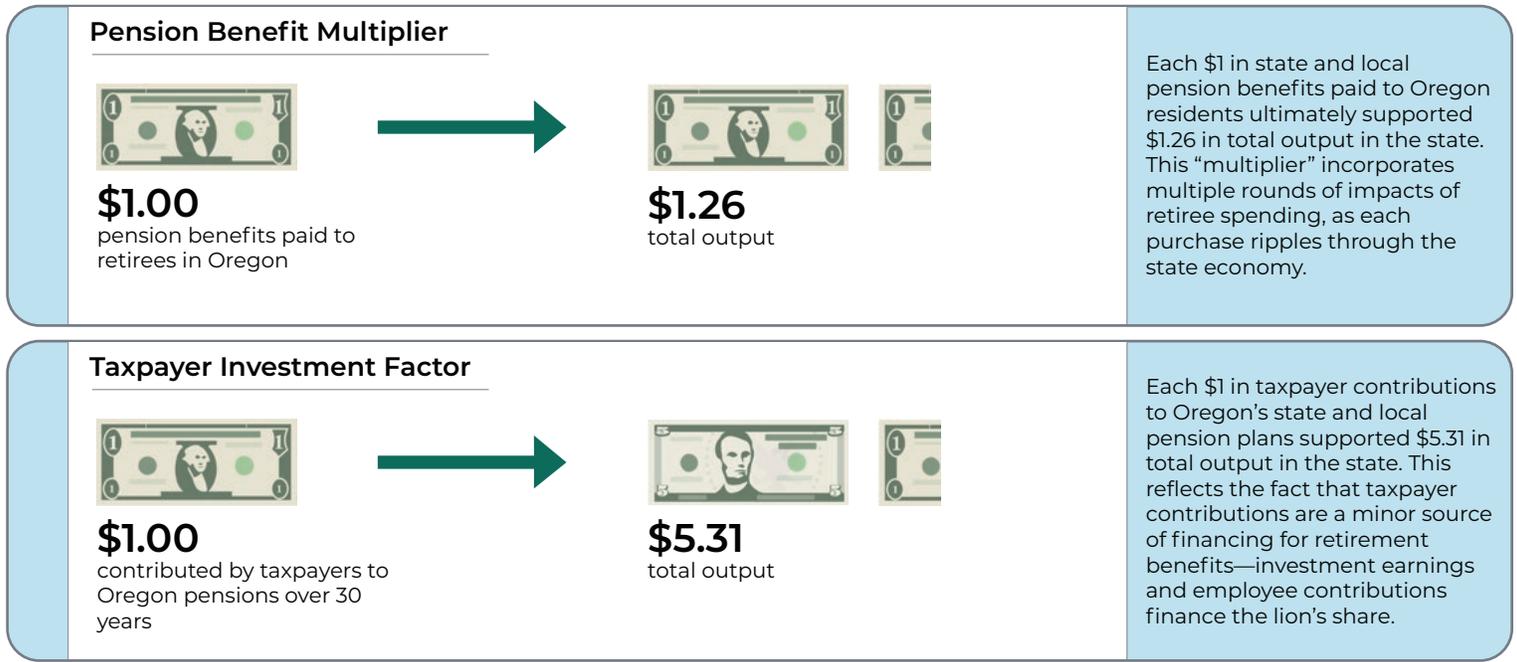

State and local pension funds in Oregon and other states paid a total of \$6.4 billion in benefits to Oregon residents in 2022. Retirees' expenditures from these benefits supported a total of \$8.1 billion in total economic output in the state, and \$4.9 billion in value added in the state.

#### Impact on Tax Revenues

State and local pension payments made to Oregon residents supported a total of \$1.6 billion in revenue to federal, state, and local governments. Taxes paid by retirees and beneficiaries directly out of pension payments totaled \$481.0 million. Taxes attributable to pension expenditures in the local economy accounted for \$1.1 billion in tax revenue.

Federal Tax	\$730.1 million
State/Local Tax	\$876.3 million
Total	\$1.6 billion

## Economic Multipliers

\*Caution should be used in interpreting these numbers. See the Technical Appendix of the full *Pensionomics* report for details.

## Economic Impacts by Industry Sector

The economic impact of state and local pension benefits was broadly felt across various industry sectors in Oregon. The five industry sectors with the largest employment impacts are presented in the table to the side.

Industry	Employment Impact (# Jobs)
Limited-service restaurants	2,545
Hospitals	2,409
Full-service restaurants	1,949
Offices of physicians	1,553
Retail - Food and beverage stores	1,505

Industry totals include the first round of impacts from pension payments to state residents, and do not account for recaptured “leakage” to or from other states.

## Economic Impacts by Occupation Category

The pension benefits in Oregon supported jobs in every civilian job category, as shown in the table below.

Occupation Category	Wage and Salary Employment	Wage and Salary Income	Supplements to Wages and Salaries	Employee Compensation
Food Preparation and Serving Related Occupations	4,976	\$114,621,766	\$20,600,134	\$135,221,900
Sales and Related Occupations	4,792	\$192,342,942	\$36,133,221	\$228,476,164
Office and Administrative Support Occupations	4,324	\$204,285,800	\$41,074,229	\$245,360,029
Transportation and Material Moving Occupations	3,285	\$138,513,714	\$28,756,601	\$167,270,315
Healthcare Practitioners and Technical Occupations	3,219	\$325,419,149	\$70,214,269	\$395,633,417
